

Goliath Materials Handling Lifting—Drum & Reel

Barrel / Drum Lifter

- The Compac Stainless Steel Lifter when fitted with the Barrel Lifting attachment can be used to handle a wide range of Barrel types and sizes.
- The Barrel Lifting attachment has been designed to grip Barrels by the circumference and rotate to any position through 360° deg.
- The complete range of Barrel Lifting attachments are fully interchangeable and can be easily fixed or removed from any model of Compac Lifter. Ideal for the Food, Medical and Pharmaceutical Industries.

Reel Handling Equipment—Vertical Spindle

- Used for lifting, handling and rotating reels or rolls of film by gripping the reels core, the Reel Handling Equipment with vertical spindle attachment is available in a wide range of sizes and configurations as standard and capable of lifting loads of up to 300kg.
- For application outside of the standard range the company provides a full bespoke design service offering solutions for most applications.
- A range of attachments are fully interchangeable and can be easily fixed or removed from any model of Compac fitted with the unique quick release system.
