

Goliath Materials Handling Pallet Inverting—Mobile

Toppo WB is an electrically powered self-propelled lift truck designed to turn and move pallets of paper or cardboard weighing up to a maximum of 1000 kg.

The Toppo can be used to remove pallets of paper from the printing machine and turn the pile over to print on the revers side. The pile can be turned virtually immediately because little pressure is required to invert the pile due to the Toppo's inique rotatine action.

In some cases, the Toppo reloads the in-feed ready to continue. Toppo WB has been designed to turn pallets of paper or cardboard with a minimum format of 50x70 cm and a maximum format of 72x104 cm.

Technical characteristics:

- Capacity: 1000 Kg
- n° 4 Forks: 560x700x h85mm
- Range: from 480 mm to 1320 mm
- Fork control: Independent
- Rotation: Manual
- Maximum paper format: 72x104cm
- Wide base: 1350 mm (internal light)
- Traction: electric

Equipment:

- Traction battery: 24V - 120A

Toppo Webb

Reels up to 1,000 kg
Manual drive and electric drive
Min and max reeldiameter 700-1.270 mm
Grips the reel on the outside!
